

Salybia Mission Project

February, 2014

On Saturday, **February 15, 2014**, on the invitation of the Dominican Youth Development Division; members of the mission visited the Kalinago territory to educate youth in the area about sexually transmitted diseases. Representatives of Salybia delivered a presentation on various sexually transmitted infections. They reported that there was a lot of enthusiasm amongst attendees who were mainly youth from the territory. The areas touched included misconceptions about STDs, signs, symptoms, prevention and treatment options available once infected. The event was featured in [Dominica news online](#).

Every year, Salybia mission project holds a **5k run**. The event is attended by novice as well as experienced runners and proceeds go towards helping members of the local community in one way or the other. This semester, we will be holding the event on **April 4th, 2014**. Participants at the event will receive a free T-shirt. There will be prizes awarded after the event. The grand prize will be a night stay at one of the destination hotels in the area.

Skills Night!

We will be holding our first ever skills night on **February 26th, 2014!** Please keep an eye out for the

signup email as space is very limited.

We also need volunteers to help setup, cleanup and supervise skills for the night. A separate email will be sent out asking for people with relevant experience to sign up for this!
